Summary

Computer Science Engineer with 15+ years in software development. Specialized in .NET Core backend for **remittances** and fintech systems. Key experience at **MCSystems (JN Money Services)** on eMoney Refresh and at **Sendvalu**. Design best practices: SOLID, patterns (incl. Saga), testing and observability; SQL Server & Entity Framework.

Skills

• .NET Core, C#, ASP.NET Core, REST APIs
• Entity Framework (EF Core), SQL Server, LINQ
• Azure (Service Bus, App Insights, DevOps), CI/CD & observability
• Microservices architecture, messaging (MassTransit), resilience
• GitLab/Azure DevOps, code reviews, technical documentation

Experience

Senior Programmer — Management Control Systems Ltd. (JN Money Services) (linkedin.com/company/management-control-systems-limited/)
Kingston, Jamaica • Sep 2023 – Present
• Backend .NET Core for **eMoney Refresh** (remittances platform).
• SQL Server & EF Core: performance tuning, tracing and observability (health checks, logging).
• Best practices: SOLID, patterns, structured logging, code reviews; Application Insights telemetry.
• Azure Service Bus integrations.

Senior Programmer — AWS Malta Ltd (Sendvalu) (sendvalu.com)
St. Julian’s, Malta • Dec 2021 – Jun 2023
• Global **remittances** platform (payments, wallet and top-ups).
• Services in .NET Core and Azure; Couchbase and Power BI reporting.
• Scrum/Azure DevOps; emphasis on code quality and reliable releases.

Senior Programmer — Dynasystems S.A.S. (linkedin.com/company/dynasystemscolombia/)
Bogotá, Colombia • Apr 2021 – Jul 2022
• **Sodexo**: .NET Core **microservices** ecosystem on Azure (finance).
• **Lleida**: asynchronous orchestration with **MassTransit** implementing the **Saga** pattern.
• Digital **signature collection** system: emails to signers, **biometric data** capture and end-to-end coordination.

Software Developer / Specialist B — ATI (Automation & IT Company)
Sancti Spíritus, Cuba • Sep 2012 – Nov 2021
• SIGERE modules: Switching, Monitoring, Monolinear and Topology Server.
• C#, .NET Remoting, SQL Server, DevExpress, GitLab, UML/EA.

Software Developer — DESOFT S.A.
Sancti Spíritus, Cuba • Sep 2009 – Oct 2011
• Java (Swing/Hibernate) systems for enterprise/public sector.

Selected Projects

MCSystems — eMoney Refresh (remittances)
• .NET Core, SQL Server, EF Core; health checks and tracing.
• Performance hardening and best-practice adoption.

Sendvalu — Remittances platform
• Azure services; payments & top-ups; roadmap to wallet.
• C#/.NET Core; Couchbase; Power BI reporting.

Dynasystems — **Sodexo** (microservices)
• .NET Core microservices on Azure; messaging and resilience.

Dynasystems — **Lleida** (digital signing with Saga)
• Orchestration with MassTransit implementing the **Saga** pattern.
• Asynchronous flow: signer emails, **biometrics** capture and process coordination.

SIGERE (power-grid, Cuba)
• Switching, Monolinear, Monitoring, Topology Server.

Education

M.Sc. in Applied Informatics — Máximo Gómez Báez University, Ciego de Ávila, Cuba
2018
Electric grid control with Switching.

B.Sc. in Computer Science — Central University “Martha Abreu” of Las Villas (UCLV), Cuba
2009
Management tool for the SCRUM-PU agile process.

Certifications

• DELF B2 (2014) and DELF B1 (2013), Alliance Française, Santiago de Cuba
• TCF Québec (2017, 2015): Oral comprehension B1–B2; oral expression B1

Languages

• Spanish — Native
• English — Intermediate
• French — Intermediate–Advanced
